SUMMARY

I am a Computer Science student at Hindustan Institute of Technology and Science with a strong interest in UI/UX Design and Web Development. I enjoy creating user-friendly, responsive, and visually appealing web applications that provide a great user experience. I have hands-on experience in front-end web development using HTML, CSS, and JavaScript, along with a solid understanding of programming fundamentals and software development concepts. Through academic and personal projects, I have built practical web applications that strengthened my problem-solving and development skills. I am passionate about continuously learning new technologies, improving my design thinking, and developing efficient, scalable, and user-cantered digital solutions.
